Hi Narelle

I just want to say that I am stoked about the breath freshener spray. I'm forever sucking on these tea tree cinnamon sticks to freshen my breath and they are very awkward (I get a lot of strange looks).

You are just awesome! A legend!

Much love,

Melissa

Organic Skin Care...

Because Health is Beauty

25 Nov 07

Dear Narelle, I met you at Japanese seminar in Osaka.

I had a rough skin, many rash and I couldn't use lotion, milk lotion and serums because of this. I had many rashes.

You taught me how to care for my skin

1. every day cleansing
2. every day gentle exfoliant
3. Skin brightener
4. blemish gel
5. soothing lotion

Now I have a beautiful skin, My skin have soft and Many rash decrease.

I can use milk lotion.

Thank you very much.

19 Nov 07

Having suffered with a scalp rash for a year, I read in your newsletter that this could be caused by the parabens in my existing shampoo. After just three treatments (ten days) with Miessence organic shampoo the rash began to reduce and after a month it has completely disappeared. I simply cannot thank you enough.

Richard P -UK

14 Nov 07

I have been a Representative of ONEgroup now for 2 yrs. In-liven is my biggest seller.

I have a customer who had a 14 yr. Old son with a "Blood Platelets Disorder, or "Thrombocytopenia " He bruised easily , his blood counts were all terribly low. He passed out due to low blood counts, was rushed to the emergency room, and put on medications. He had this disease for 2 yrs, and the Doctors could not help him. He had various blood transfusions, and recently was told he needed a bone marrow transplant. They found In-liven , and the rest is History! Before starting on In-liven his platelets were 20,000, the norm is (140,000, - 400,000), right now after 3 months of taking 2 tsp a day, it went up to 83,000, up 62,000 points! Working on getting that higher. His Haemoglobin before starting was 6 the norm is (12-16) now, it is 12.5 ! White blood count very low, don't have the number, norm (4.0-10.5) , it is now 5.3 ! Red blood cell count, before was 2.39 norm is (4.7-6.1) now it is 3.74, working on it! But it is better! Bone Marrow was 25% the norm is (99%-100%) , now it is 65%, still working on it, but it is getting better! He also suffered from "OCD" Obsessive Compulsive Disorder, his Mother has told me that he hasn't had any problems with it since being on it, and not been sick all winter, everybody else was, but not him. His Mother is also happy to say that after 2 yrs. He can now play football!

The Doctors are taking him off of medications because of improvements. They were impressed!.. His Mother is ecstatic! She can't thank me enough for what this Product has done. I want to personally thank Czerral for this product. I have been on it for over 1 yr. And the results are amazing..

.....I thank you and that little boy and his Mother thank-you!

Michelle G ND, USA

13 Nov 07

Hi Narelle,

I will be out of town and off-line for the rest of the week, so should you get back to me and receive no reply that is why. However here is a final observation on the product:

Now that I'm back using an earlier batch of Rejuvenating Skin Conditioner my skin is not as soft, even with exfoliating, as it was while I was using product from Batch 071207. However my skin feels more robust and the suppleness has returned. (It felt fragile and tight while using the other)

I started using Miessence after a long-term (5 year) illness left the skin on my face very damaged, lined and dehydrated .Prior to the illness complete strangers would comment on what a beautiful complexion I had. Now at 37 people are now again commenting on my skin, and even one of my own Miessence customers keeps saying to me, "You look like you've had a face lift!" I put it down solely to the quality of the Miessence products, and in particular the Rejuvenating range. I can only imagine there has been some small change made to the formula that my skin does not agree with...

Also, I solved the problem with the new hair conditioner. I have always been used to having to use a LOT of conditioner on my long hair, thick - but have found if I use a lot of this product it left my hair weighed down. The new formula is SO nourishing that I now only need a small "10cent piece" amount of product to do my whole head of hair. It's great!

Thanks again for creating such wonderful products Narelle. I have managed to find some Rejuvenating Conditioner from an earlier batch in a local health food store. Hopefully this will tide me over until the mystery is solved.

Kind regards

Clare F

Unconventional use for biopure

For as long as I can remember, I always had very dry, rough, cracked feet. My heels had such deep cracks that sometimes it was extremely painful to walk. After a pedicure, all the dry skin would be sloughed away and there would still be a fresh crack visible. After the pedicure, the dry painful cracks would always come back. I read somewhere that cracks can be due to bacteria within the crack which don't allow it to heal. I started spraying diluted biopure onto my feet ~ 1 time daily to try and combat the bacteria which was preventing my cracked heels from healing. After 1 1/2 months of applying biopure, my feet are no longer cracked and are actually quite smooth - for the first time that I can remember!!

02 Oct 07

To whom it may concern,

Just thought I would let you know what I have been using the body powder for.

I had oil stains on the carpet they had been there for about 2 months and I thought better do something

about this, put some powder on every spot and left for a couple of hours, when I came home the spots

had vanished...This saved my life as my flatmate would have killed me.

I am also using the mouthwash for a cold sore and it is almost gone...it is fantastic stuff, put it on spots and sores and all sorts. fantastic antiseptic.

Clare B, NSW, Australia

28 Sept 07

I have been using the jaffa lip balm on my fingernails and it has been working really well. Have been sanding and painting for two weeks and the balm has kept my nails in good condition.

Sofia K WA

26 Sept 07

I'm not sure if you will remember or not as I'm sure you get many emails, but I wanted to share this with you. The email below is from one of my preferred customers. Her son has a very severe case of Colitis and I had emailed you a couple of weeks ago to ask about the specifics on taking In Liven and Fast Tract for someone with Colitis. You were VERY quick with your replies and within days Czerral had answered me back directly (through you) when you felt you were unable to completely do so..I am thrilled that One Group has been so prompt since it kept a 17 year old boy off Prednisone!

Many Thanks, Cali J Alberta, Canada

Hi Cali,

Well it was exactly one week ago last night that our shipment of In Liven from Australia arrived, and what an AMAZING difference! My son started taking probiotics days earlier, and was told last Tuesday by his Specialist that he would need to go on Prednisone this coming Friday if he did not improve. His Dad has Crohn's so I was well aware of the "signs" and potential surgeries..

As his Mom, I was putting A LOT of "hope" that In Liven would work very quickly and prevent the need for Prednisone. It appears my "prayers" may have been answered and I thank-you Cali. My son recently turned 17.

He's been taking In Liven 3x/day and is sleeping through the night for the first time in months. He's is no longer "starving himself" . This morning he asked, "Mom, can I take this forever?" He looks healthier (skin tone, energy level) than he's been since mid-May.

Feel free to post our "testimonial" on an anonymous basis on your website. Wishing you continued health Cali, and once again, thanks!

14 Sept 07

Congratulations Narelle,

The Body Milk is superb. And as soon as I squeezed some onto my husband's hand as well he wiped it over his face and said keenly, 'I'd like some of that!'

I have now found a Miessence product that I am able to use on my face. I love its soft, smooth, creamy feel, its fresh and attractive aroma, and a Miessence product that does not irritate my face.

The reason I am so overjoyed with this product is that I had to stop using Miessence products on my face because I developed a facial rash after using them for a few months. The Skin Specialist agreed that there were no ingredients in the products which are usually associated with skin irritation. He said my skin must have become sensitised to a natural ingredient in them.

He suggested that I put nothing on my face for a couple of months and then reintroduce the products gradually. I did this two or three times but each time I started to put any of the facial products on my face again, it felt irritated and the rash flared up again.

At this time I was introduced to Brand X and started to wash my face in the Brand X water, only, and to use the Brand X Vitamin Balm on my face. It was soothing and I had no irritation. I wished Miessence had such a product I could use, as I use and promote all the ONE Group products I can. Maybe now my wish has come true.

As soon as I received the Body Milk I decided to risk trying it on one cheek of my face, keeping the other one on Brand X Vitamin Balm as a 'control'. So far there is no irritation at all and my 'experiment' Body Milk cheek is feeling soft, smooth and wonderful. What a relief - so glad.

I searched through the ingredient list of the Miessence facial products to try to get a clue as to what I might be reacting against. I also remembered that when I sold Brand Y I could not use the Citrus Toner. Then it hit me that all of the Miessence facial products have some kind of citrus ingredient in them, but the Body Milk does not! I may be wrong, but I think that the absence of citrus is probably what makes the Body Milk so acceptable for my 'very mature skin' (Jane Fonda eat your heart out!). I'd like it in a tube like the new hand cream so I could get it out of the container better. A 'look alike/feel alike' could be packaged as a facial cream for the very sensitive skin.

Many thanks,

Connie F, VIC, Australia

31 Aug 07

Just wanted to congratulate you on the new products. Once again, you have come up with products so spectacular one can only marvel at your genius! The way you blend the ingredients together to make the most superbly stunning preparations is just amazing. Yet again, as I use each new product, I am reminded of how grateful I am and how special it is to have these magnificent products at my fingertips enhancing my health, the environment and my bank balance as well.

I have had cold sores since I was a baby that only come out these days if I have exposure to the sun for more than a few mins. Last weekend I sat out in the sun(yes, it was a warm day in an otherwise dreary Melb winter!) for over two hours, and having used the Outdoor Balm before I left home, I was thrilled that no cold sores have appeared at all! And if they were going to, they would be up and blistering within one or two days. (It's now 6 days later) Awesome!!

Plus, I have been having a sachet of Berry Radical for the past 5 days and I am not imagining it but I am sleeping better and much of the pain in my body has died down and I have more energy. Which is pretty amazing after all I have done to try to achieve these three primary things in health over the past few years. I think, combined with In-Liven, I am really onto a winner. Berry Radical feels great in my body, I adore the taste and I look forward to making up my shake each morning.

And the household cleaner - wow!!! How awesome is that! Cleans magnificently (and I'm known as a bit of a fusspot when it comes to cleaning and germs!) and smells divine and is way, way cheaper than the orange cleaner and/or eucalyptus I have used in the past.

My list of products I am excited about goes on and on but I just wanted to share these few with you as they have had such a great impact. It's just like the beginning when I first joined - I am dancing around the house cleaning, spraying, moisturising and smelling divine!

Wendy B Vic, Australia

20 Aug 07

I started to work with horses on a daily basis and wow did my hands suffer with dryness and bad cracks. Nothing seemed to make them soft until this new Nourishing Hand Cream hit the market, now my hands are softer and it even prevented the cracks from getting bigger instead they disappeared!

Thanks Narelle for taking the time and making such good products that really work! Well Done!

Andrea P, SA, Australia

17 Aug 07

I love these products! I began to develop problems with my skin in my 30's.... looking dull and breaking out. I bought your products and now my skin is glowing and friends are complimenting. I have also been on a 15 year quest for a shampoo that will actually clean my hair instead of coating it and leaving it dull and greasy. Your shampoo has my hair soft and clean like when I was a child. And I gave up hope of ever finding a deodorant that leaves me feeling and smelling fresh instead of sticky and smelling like chemical scents. Your deodorant is beautiful. I'm hooked for life. I will never go back to using products with chemicals. And by the way, for the first time in my life I have a mascara that doesn't irritate my eyes.

Thank you so much for making these products!

Kay M, CA, USA

15 Aug 07

"Thank you, Narelle for developing a hand cream that truly nourishes my hands. I have lived with severely dry skin since childhood especially on my hands. As an adult I developed eczema on my hands while working in the product department of our local grocery store, which left my hands constantly in pain and thin from all of the ointments prescribed by my doctors. Your Nourishing Hand Cream provides me with the relief I need to go about my daily routine of being a mother and gardener with out cracking and I also have noticed the thinning of my skin is much better. I can apply the cream and it still provides softness even after repeated use in water. Thank you also for making the cream smell so good. Yesterday while I was at my doctor appointment I was applying my hand cream and the receptionist commented that my lotion smelled great which prompted me to tell her about our awesome line of products and I was able to give her my card."

Danna C. CA, USA

13 Aug 07

"The hand cream is fantastic. My partner has been using it to treat his dry hands and only using it once a day before going to bed has made a huge difference. Thank you for another brilliant product."

Debbie G. WA, Australia

12 Aug 07

"I have been a Representative with ONE Group since its inception. I have been really looking forward to the company producing a true Hand Cream and at last it has arrived! My hands suffer in winter from cracked cuticles which form deep crevices and start to bleed. Since trying this cream I am seeing an improvement, so this cream is going a long way to helping me keep the problem at bay. I will try it as foot cream in summer when my heels crack.

Thank you ONE Group for a wonderful product."

Glennis P. NSW, Australia

11 Aug 07

"As a massage therapist my hands need to be extremely soft. Being a single mother and having the responsibility of caring for a large home and yard proved to have adverse effects on my hands, even when I would wear gloves. Now, before yard work or cleaning, I apply an ample coating of this wonderful luxurious hand cream then put on my gloves, and it's like giving myself a hand treatment each time I work around the house. I also use a little dab of the cream just after washing my hands. WOW! I've even had my regular clients remark on the softness of my hands. My answer to them of course is Miessence Nourishing Hand Cream. Their response is: "Where can I get some?" Oh, the hand cream also keeps my heels from becoming cracked and dry. Thank you for all of your superb products, Especially the Nourishing Hand Cream. Narelle, you've done it again! Love, Light, and Good Health."

Sherry G. DE, United States

10 Aug 07

"Hello! I love the Mint Toothpaste and Mouthwash. I've always had problems with sores on my tongue. My dentist told me it was Geographic Tongue and relatively common. It would be quite painful after drinking soda, spicy foods, or red sauces. Well, after using the Mint Toothpaste and Mouthwash the problem that I've had since I was a child is gone. No more sores or problems eating certain foods. I recommended these two products to my mother, who has problems with swelling and bleeding on her gums due to her medication. Her dentist was extremely surprised by the results. She's now off her medicated mouthwash. Thanks for the great products!!!!"

Reegan B - Missouri USA

10 Aug 07

"I've recently sent you my feelings & experience of receiving & using the beautiful new Nourishing Hand cream in the last day or 2 - it's so good that I couldn't pass up an opportunity to receive another...so I am giving you my feedback again.

1st surprise : Delivered early to my doorstep & discovering it to be cheaper than I originally thought, I keenly unpacked my parcel of goodies, most happy to find the luxuriant hand cream included & not back-ordered as I thought it could be.

I have suffered with an ongoing psoriasis-like rash that flares up particularly in dry winter conditions here in the tropics. It itches, cracks & bleeds at its worst. I have observed / removed all manner of influences which affect the condition & used many treatments, as natural as possible. Some have helped but then I find it is only temporary relief.

2nd surprise : You can imagine my deep joy discovering the instant healing properties I found within the nurturing, delicately fragrant Nourishing Hand cream - the redness disappeared along with the itchiness, while my hand felt soothed & 'normal' again. Pretty powerful stuff!

2nd day results have continued with the remarkable work these luscious ingredients are doing & I feel so pampered, never mind the gentle aromatherapy affects. After a late night out at a concert with so much hand clapping & severe treatment of my hands, I have applied another tiny amount of hand cream which is restoring the movement in my fingers & rejuvenating my skin. This would usually take days of constant lathering with moisturisers & creams to achieve a similar outcome.

3rd surprise : the speed of healing

So THANK-YOU Narelle & all of Miessence, Mionegroup for giving me the gift of Nourishing Hand Cream. Gratefully,"

Lauren B. QLD, Australia

10 Aug 07

"I developed a few months ago, a contact dermatitis rash under my wedding and engagement rings. Being relatively newly married I was bit upset at having to stop wearing them as it spread down my finger and into the web spaces. I tried everything; I just couldn't get the redness and dryness under control. I need to wash my hands a lot at work too which made it even harder. My saviour the jaffa lip balm! It was brilliant, for two days I put it on my finger continuously, not letting the skin dry out, it was the only thing I could use that didn't sink into the skin straight away. I now wear my rings again and keep the balm close by for lips and fingers! I have also used it as an intensive hand moisturiser, especially overnight and my husband has even used it as emergency hair gel. It's the best!"

Kristine M. VIC, Australia

09 Aug 07

"Clichéd it may be, but this is truly the best hand-cream I have used. I love that it is so easily absorbed and has a heavenly aroma, rose essential oil is magical. My nails are growing wonderfully long. The tube is so dinky and easy to carry in my coat pocket.

I even shared the hand-cream with a lady at the physiotherapists today; she was chatting about nails and I said this hand-cream is great, you can have a try if you like, she loved it, asked where she could get some and is also coming to my first MiSpa party! It may be a small tube but it is full of beneficial ingredients that smell gorgeous.

I love it. All the best."

Joanna R. Wanaka, New Zealand

09 Aug 07

"For the past month I have been treating the girls in my office to what I call An Afternoon Delight -About 3.30pm in the afternoon when we all start to feel a little flat, I grab my new Nourishing Hand Cream and make my way around the office treating the girls to a squeeze of hand cream. Imagine my delight when the guys showed an interest, and now they too are enjoying being treated to An Afternoon Delight -Everyone comments on the delightful fragrance, lovely thick texture and non greasiness of the cream. It sure puts a spark in our step for the afternoon."

Narelle M. SA, Australia

08 August 07

Thank you for ...Berry Radical, how can something so delicious be so good for us? I added mine to organic apple juice in the blender,mmmmm!! Congratulations, this one is definitely a winner.

Lynn W QLD, Australia

24 July 07

Narelle, I forgot to mention that your Hand Cream is unrivalled, absolutely fantastic - divine! I have been waiting all my life for a product like this. And I just listened to the recorded June conference call what you are saying about your father and your uncle...

And regarding the Berry Radical: I MUST convince Peter to try it out and recommend it to his patients - what you are saying about it is brilliant. I am eagerly waiting for any material available on the web (apart from the flyer), probably also in German ;-)

All the best to you, the family and the team!

Warm regards

Doris G, Germany

06 Jul 07

Hi Everyone!

I received two--well actually three testimonies from my In-Liven customers that I want to share with you. I think you will enjoy them!

For several years, my elderly father had problems controlling his bowels, especially at night. He would wake up at night with a loss of control and it was terribly humiliating and embarrassing for him. He didn't feel that he could get very far from home, and it kept him from overnight visits to see the relatives. He had been taking Acidophiles for some time which helped for a while, but then it seemed to stop working. My friend Kimberly Walker introduced us to the ONE Group Probiotic products and shared with us how it could help him. He started on the Fast-Tract Probiotic and within a few days, he was sleeping through the night without losing control of his bowels. He is now taking the In-Liven Probiotic and his digestive tract seems to be better than it has been in years. I am pleased to say we are now planning a trip to visit relatives for a week!

I have also experienced a positive change in my health since using ONE Group probiotics. I took the Fast-Tract for about two weeks and then started taking the In-Liven. I have seen a great improvement in my

digestion and regularity. I also have noticed that my hair is not falling out as it has for years. That's a great result!

Now we have started my Mom on the In-Liven. She has been chronically ill for many years with terrible pain from arthritis and fibromyalgia and has had 2 hip and back surgeries. She has suffered with being constipated to the point that she is would be impacted with faecal matter. She has now been on the probiotic for two weeks and is for the first time in years seeing a change in her bowel movements with them being more regular and soft.

Submitted by -Kimberley W, Texas, USA

21 June 07

I have used numerous brands of 'natural' deodorants and was never satisfied until I came across your

deodorant. While the packaging has changed a number of times over the past 5 years or so, the product within remains the absolute best! Great job guys! I have recommended this product to many people.

Tonia A, Vic, Australia

20 June 07

Dear Narelle,

It was very very nice to see you at the conference on the Gold Coast.

Since I've involved with ONE Group I was dreaming about seeing you.

Now my dream came true & my next dream is to make more friends to involve with ONE Group & an organic life!

Hiroko K, NSW, Australia

19 June 07

Hi Narelle,

I have just tried the New "Probiotic Household Cleaner" and I am so amazed at just how fantastic it is.

I want to thank you from the bottom of my heart for such a fantastic Conference and I am so privileged to have been a part of it.

I am only fairly new in the Company, however, everyone that I continue to meet makes me feel as though I have known them forever.

You really have made the very best products in the world and there definitely is no comparison.

I just want to get back and start cleaning again....This is great!

Thank you again.

Kind Regards.

Loretta C, QLD, Australia

01 June 07

I became passionate for organics, health and wellness when I found out I had a heavy content of lead and mercury in my body. That's when my family and I converted to organic and natural products. Just recently, I discovered toxic chemicals in the "natural" skin care and cosmetic products I have been using for years. I felt shocked and betrayed. These discoveries lead me to ONE Group. I joined ONE Group because I feel the company is fully committed to providing products that are certified organic, completely beneficial, without synthetic chemicals used as preservatives, fragrances, emulsifiers, stabilizers, etc. I want to be a part of a company that has a positive effect on the health and wellness of others, and the environment.

Susan H, AR, USA

27 May 07

My parcel with the Miessence products just arrived yesterday and I was so excited to try them out. The Ambrosia essence was amazing!!! I used to have really soft smooth facial skin until a couple of years ago, due to stress at work, have had eczema on my face intermittently. I had been taking courses of oral steroid and dependent on steroid creams. Last night, I have put the Ambrosia essence on my eczema patches. I cannot believe that it has soothed the irritated skin immediately and today, the rash has much improved!!!

Absolutely loving the essence and am loving the fact that it's organic and I know that it's safe for my skin!

Thank you Miessence! Please continue with your research into producing more products!

Liza O, Hong Kong

14 May 07

Hi Narelle,

Well I have persevered and the results are fantastic. My face has settled down and cleared up. All the little warts that you get with old age that lined my hairline have albeit gone and my scalp which was always very dry and flaky is almost clear. The itch I got after washing my hair seems to have subsided as well. I'm not sure if I told you but from colouring my hair I had developed a rash around my neck which the Doctor told me I would have for the rest of my life and that the only way to treat it was with a steroid cream. Since I have changed my lifestyle, steroids were not on my list of 'gosh I better get some more', so I have only been using organic products on my neck, or my Miessence Moisturiser and you know what, Don't believe what the Dr says all the time because she is not always right. My neck which was always itchy to the point that it kept me awake at nights, is now as good as new.

I would also like to complement you on Buzz Free which is in my and several of my friends first aid kits. I have now used it successfully to chase away the little biting blighters, on spider bites, sand fly bites, for burns after the cold water treatment and after being stung by stinging nettle. I have even used it on my granddaughter after she was stung by a wasp and it appears to have given instant relief. One of my friends had been burnt by a shrink wrapper at work several days prior to telling me and her burn had been itchy as it recovered. One spray of Buzz Free and the itching stopped. I don't know what's in it, but it seems to work on everything.

I am really looking forward to coming over for the Conference and meeting some of your wonderful team. I can't speak highly enough of them for the support they have given me here in N.Z.

Not having any means of real training here it is not always easy, but your team and my upline sponsors have been awesome and so supportive. I'm hoping that by coming to the conference I will be able to firstly take some of the pressure off those whom I constantly send questions too, and secondly gain some valuable first hand information to share with the reps in New Zealand.

Thank you so much for your support and wonderful products. I now use nothing else.

Warm regards,

Eve N, New Zealand

12 May 07

I am pleased to report that my daughter doesn't need to have her tonsils removed. After taking my daughter to an E.N.T. for repeated ear infections and extremely enlarged tonsils, I was told that the only answer for her was to have them removed. The thought of my child having surgery just didn't settle with me. I started giving her In-Liven and told the doctor I was not willing to go through with the surgery at this time. I rescheduled an appointment with him for a three month check-up.

Upon returning to the doctor, he stared at her throat in amazement. He then proceeded to tell me that her tonsils were of normal size, and that he rarely ever sees this happen. I told him of the In-Liven and he

said to keep it up. Bri looks forward to her In-liven every day. Thank you ONE Group, thank you ever so much!

Sherry G, DE, USA

11 May 07

I recently had my first baby named Oliver! Throughout the whole pregnancy I used Rejuvenessence on my belly twice a day. It felt great & kept my skin in excellent condition. I did not get one stretch mark (my body was prone to getting them in the past) - I was so thrilled!! It's such a wonderful product.

Another must have product during pregnancy for me was In-Liven. I took it three times a day & felt absolutely fantastic. On the odd few days that I forgot to take it, I found my hips would ache at night. This was just another indicator of how much this probiotic does for your body. Needless to say, my baby is bright eyed, has perfect health & is bounding with energy. I know he is getting all the nourishment he needs from my organic diet & lots of In-Liven. There is no way I would go through a pregnancy without it. Thank you Czerral & ONE Group!

Regi S, WA, Australia

28 Apr 07

I love the ONE Group Products! It may be a combination of MiVitality and Miessence Shampoo/Conditioner, but my baby fine hair has more volume, body and shine! No more flat, greasy hair! I also love the Sunflower Body wash and Jaffa lip Balm. So many wonderful, good for you products!

Evelyn R. NC, USA

18 Apr 07

For many years I suffered acne and poor skin. I tried many different products, that proved to be useless. I was at my wits end being an adult with skin that looked horrible. I tried Miessence and now have healthy clear and near to perfect skin.

Thanks Narelle.

P.S My little boy has only ever had Sunflower Body Wash used on his skin and hair and he has beautiful clear skin and a problem free scalp. He loves it as a bubble bath.

Anne-Marie H, SA, Australia

16 Apr 07

My husband has an extremely high allergy to midge bites in QLD where they blister and leak fluid for days after the bite. This has left many scars on his skin. He searched the internet for a natural repellent and came across "buzz free zone personal spray". Since using this no more midge bites. He also bought the deodorants which we both love and even keeps the B.O away after a heavy gym workout. Thank you miessence for your brilliant products, we look forward experiencing more of your them and sharing our

experience with family and friends.

Frances H, QLD, Australia

14 Apr 07

Mosquitoes were a real problem, but not anymore! The Buzz Free Zone Personal Spray REALLY WORKS! My whole family loves it! What's also wonderful is that I can use it on my son and nieces and nephews and I won't be putting any chemicals on them because it's 100% safe! (And it smells awesome too!)

Stacey F, Missouri USA

07 Apr 07

The scents are earthy, natural, pure, not flowery. I'm reminded of ocean waters, freshly mowed grass, and herbal teas. -----I'm absolutely thrilled, that finally, finally, someone in the cosmetic MLM industry is making something I can be safe in using, and can be honest about to customers. I can at last tell people that here are products which will truly "feed" their skin!!!

Tanya B, USA

03 Apr 07

I've used (X Brand) products for a number of years and been very happy with them. I've just recently signed on as a Rep with ONE Group and have just started trying your products. So, far I find them fantastic! The body intensive cream is much better than the (X Brand) body lotions. I have dry skin and I think it's wonderful. It works for my hand and feet also! Thanks and I'm looking forward to trying more of the products.

Laura L, USA

05 Mar 07

"By the way, I just love the products that I bought. I use the purifying skin care system and it is just delicious! The body cream and sunflower was are like nothing that I have used before. I'm quickly forgetting all of those artificial perfumed body washes that I used to use!"

When I was pregnant the pigmentation in my skin around my face and under arms began to go dark. I was so embarrassed to raise my arms, the worse thing, I was pregnant during summer, so wearing singlets was a no no. Pregnancy brings out the beauty in some women, but, not under my arms. I became depressed until my best friend told me to go organic and to try Miessence. Wow, what a God Send! I was able to clean off the dark pigmentation and I have never gone back to any other deodorants. I highly recommend this product to all women who love to have beautiful skin.

I have been taking Mi-Vitality (in-Liven) now for 5 months. By the third month my blood pressure had returned to a normal reading. I was advised by my GP to go on blood pressure tablets for high blood pressure but decided to give the MI-VITALITY a go. During this time I have not changed my diet or increased my exercise routine! I'm very happy with the results.

I have been using the In-Liven probiotic regularly for 4 months now, since my daughter was a month old and began having colic.

I am breastfeeding and found that her colic symptoms improved greatly after about a week of my taking In-Liven. I have also lost around 15 kilos (from a size 16 down to a size 10), and no longer retain too much fluid since I started taking it. I have been overweight since my son was born 14 years ago and am feeling so much healthier and fitter now. Thanks for such a safe, healthy and effective product.

Thank you so much for the opportunity to meet with some other ONE Group Reps and listen to what you (Wendy), Debbie and Melissa had to say. I found it very interesting and definitely came away with some points in my notepad written in extremely large letters and underlined many times.

I must admit to having had a poor perception of MLM and those involved, but joined up with ONE Group in the hope that they were honestly about what they proclaim themselves to be. I've seen this absolutely in your selfless gesture in inviting those not of your downline to your training... you can't know how impressed I was by this. You were all lovely and generous and inspiring. Thanks again.

08 Feb 07

A fellow Mom loaned my her balancing cleanser, skin conditioner, and moisturizer to try over a four-day period. I loved them all--they felt so luxurious and smelled divine. When my little trial was up, I had to go

back to my old, supposedly "mild, ultra-soothing" cleanser while I waited for my Miessence order to arrive. It was then that I noticed what a difference the Miessence products made. My old cleanser, which I had always thought was excellent, left my skin dry, with a reddish tint. I can't wait for my new products to arrive!

"I absolutely love love love the deodorant (aroma free) - I have tried almost every natural one out there and yours is fantastic."

Elisha, CA, USA

15 Jan 07

"I love your Organic products. Besides the wonderful integrity of your skin care line, these products smell better than anything I've encountered before!"

Carolyn, WA, USA

12 Jan 07

I washed my face tonight and used the garnet exfoliant (I LOVE this!), the Rejuvenating skin conditioner, and the balancing moisturizer. Right after finishing, my 4 year old son (Finn) came into the bathroom and asked what I was doing. I told him I just finished with my face and he asked if I used "the leaf stuff"... then he wanted to smell my face. I leaned in really closely and he took a big sniff and said, "mmmmm, I LIKE that!

The In-Liven has helped clear out my stomach, reduce bloating, and given me more energy & vitality. When first signs of getting sick occur i.e. a cold I take larger doses and the symptoms disappear. Adverse menopausal symptoms and carb. cravings have been curbed. The fungus under my fingernail is clearing and I see improvements happening with fungus under my toe nail. My pet parrot Max has suffered with a large cyst under his left leg. One week on In-Liven, has seen cyst size reduction. My family and I also use many of the other products. The deodorant works a charm. My hair has gone through a detox by using the shampoo & conditioner + I have added in the clarifying hair rinse to assist with the scalp detox. My hair felt a bit like straw for a while, but it has come back really beautiful now. My family love the toothpaste and the freshness of really clean teeth and breath without all the unnecessary chemicals. Gums and tongue look better.

Jas R QLD, Australia.

11 Jan 07

The In-Liven has improved my overall sense of well being, improved the consistency and regularity of bowel habits and a toenail which has been a problem for 2-3 years is starting to grow out normally. I notice the toothpaste has improved my gums - reduced the redness considerably (gingivitis). I love using the deodorant because I know its completely safe and I find it lasts all day. It works beautifully.

Ever since I started full time work I've been the first to pick up every cold and flu going around the office. No matter how healthy I ate and how many multi-vitamins I took I just couldn't seem to build up my immune system. I have now only been taking In-Liven for 6 weeks and in this time 4 colleagues have come down with colds and also pneumonia, and I have stayed well and covered their shifts! I simply cannot believe that my immune system finally feels like it's on my side. In fact, the other day I was asked why I wasn't getting sick and I nearly fell off my chair!! I put this all down to In-Liven - a totally organic probiotic that has replaced all of my multivitamin tablets and is now a part of my daily routine.

(Testimonial upon receiving the Rejuvenating Skin Care Pack). I am a certified cosmetologist and holistic health counsellor in training and I was blown away by the result. Opening my own little corner in a spa for organic health and beauty I am delighted to have found a company that supports my beliefs for environmentally and health friendly personal care AND sees to it that their reps and shoppers get the education so necessary to make informed buying decisions.

Just writing, because I purchased some powder foundation recently, a fair and a medium (I blend) ..

Firstly, I'm MOST impressed.. it has to be the best cosmetic to ever have hit my face! It's beautifully smooth and natural looking. its still the best foundation in the world!!

01 Jan 07

Hi Narelle,

Happy New Year. Just wanted to let you know something - as I'm almost 50 and have had some liver damage I have the occasional brown spot on my skin. They are permanent and I've not really worried about them. There's one on my hand and when I use the eye and neck serum I pump out a bit onto my hand and then dab around my eyes and use the rest for neck. The spot where I pump onto my hand just happens to be where I have one of those brown spots. I noticed how it was starting to fade and wondered could it have anything to do with the serum. Kept doing the same thing and the spot has now disappeared altogether. Have one on my face and I'm using a little serum to see what happens and it has definitely faded. It was obviously different after only one week and a month later it's very light so I'm hoping it will disappear altogether in a few months.

I really, really like the blemish gel. It worked so fantastic on my face just over night that it was unreal.

Donna, OR, USA

20 Oct 06

"After eating In-Liven for three months, I have lost most sugar and carb cravings, bowel movements are fantastic and one odd thing is a fungus infection that I have had under 2 of my toe nails for FOUR YEARS!!!!!! On 1 toe nail it has completely disappeared and on the other it is about half gone. I can't believe it! I refused to take prescription medication to clear these infections up as I totally disagree with taking medication and the cost was absolutely exorbitant. So, I am pleasantly shocked to see that it is nearly gone".

Julie C. Australia.

"I Sandra L am writing this message to let you and your company know that I have been a breast cancer patient for 6 ½ years now.

I had very aggressive grade 2 cancer and it was also in my lymph glands. After 6 months of chemo in hospital and 5 years on tomoxafin (HER - Hormone Estrogen Receptor Positive cancer) I had no energy and my health had taken a battering. I met Joanna and Penny and was introduced to Miessence MiVitality

In-Liven and generally started to feel extremely well.

I have had all my testing in the last few weeks and had a perfect blood reading, no cancer cells and every other level including iron was perfect. I look and feel great thanks to this product.

I have been a vegetarian for 44 out of 48 years. I was asked at my oncologist office what am I using, Dr H. said "Oh my God, what are you doing, Keep it up!" I feel that beside my positive wise, caring nature it is definitely your product that has made me so well.

I had always for 20 years or so taken spirulina; having worked in a pharmacy for many years, and this is in my mind the most superior product on the market.

Thank you Alf Orpen, your work in organics will be a ripple effect for many many years to come.

16 Aug 06

My husband has been diagnosed with liver toxicity, adrenal fatigue & candidiasis. Amazingly, the tests showed his good flora in his gut was abundant & we owe that to In-Liven, which is the only probiotic he has been taking! His health could be much worse if not for such an incredible product & we know that In-Liven will be key in his healing. I highly recommend it to anyone. As his doctors said, "Whatever probiotic you have him on, keep him on it because it's working!"

Lisa M, USA

7 Aug 06

I just wanted to let you know of another fantastic reason to use IN-LIVEN. My daughter whom is teething has been getting dreadful nappy rash (4 teeth through and horrid nappy rash). Due to gastro going around town I increased the amount of IN-LIVEN the girls where having. Next thing I realise that 5 more teeth have come through (over 2 month period) not a sign of ANY nappy rash. I only realised that when I increased IN-LIVEN that the rash disappeared also, and we never got gastro in our house at all, even though most of the town I live in got it. Has to be the IN-LIVEN. Thank you very much.

I am 12 years old and my mother is a Rep for ONE Group. She has made me try the miessence. The soothing was better for my skin. I have been using it now for a month now and the kids from school have said that I look different but they can't tell what it is. My mom says it is because of the skin care products. I drink lots of water, although I could drink more and I only suffer occasionally from pimples. I enjoy being outside and spend a lot of time out of doors skiing.

I have just spoken with the owner of my sponsored health store to check on how they are going with Miessence products and they are delighted.

The owner mentioned to me the success with In-Liven and how a young leukaemia patient takes it all the time as it is the only thing that helps with his energy levels.

"The body lotion (intensive body cream) was wonderful on my sunburn, it just cleared it up, there was no peeling. I was really happy about that."

Janet B, OR, USA

1 Jul 06

The concealers are the best thing I have found in my experience in getting rid of nappy rash (yes, better than Aloe or Paw Paw!). By the next nappy change it has disappeared all together (no, that's not because it's hiding under the concealer!). Even commercial zinc creams which have only used once don't work that well. The only thing is that it's a really EXPENSIVE way of getting rid of it :) hope you may include this in a baby range soon.

Also, any chance of a handbag size Intensive Body Lotion as we are all washing our moisturiser bottles out and filling them up?

Melissa T, VIC Australia

23 Jun 06

STAR PRODUCT! My skin is softer and smoother and the scar not so raised and it's just my 7days of application of Ambrosia. No difference in the darkness of it, so perhaps the fading effect will come later. The scent is very strong, like overdose of essential oil but acceptable. The products are certified organic gives me peace of mind. I know I am not using products that may contain harmful chemicals. My skin texture is smoother and acne and blemishes have subsided. My hair has also recovered from the dryness caused by colouring since using the shampoo & conditioner. I am also using the toothpaste, Blemish Gel, Body Wash, the set of skin care regime ----

Anna , Singapore

23 Jun 06

I am very happy with Desert flower Shampoo because after about 3 mths of using it, my fringe starts growing! I dropped my fringe since after the birth of my first son. I have long hair so it was not so obvious. My hair is frizzy in the middle and Jo suggested that I try Intensive Body Cream (IBC)and now I am able to let go my hair and to my surprised, my hair dresser actually told me that my new batch of hair seems to grow straight without the frizziness. The IBC also helps me to comb my long hair with ease. Wow! 2 in 1 cream for body and hair.

Thanks.

Linda A, Singapore

23 Jun 06

I really benefited from the probiotics, In-Liven. I used to fall sick even with the constant intake of supplements but since I was introduced In-Liven , my health begins to improve. It has been half a year now, I feel great and I will continue to consume it faithfully.

Cindy K , Singapore

23 Jun 06

Mascara, it last a long time and not easily smudge and easy to wash off as compared to other brands. The Lemon Shampoo has helped my oily hair. Body Wash is really gentle to my skin and my skin now feels smoother. My sensitive skin gets red and itchy with soaps that I used even those which is claimed to be natural and gentle. Thank you for these wonderful products.

Jane G, Singapore

28 May 06

I get so excited about receiving the products each month! This month I ordered mostly facial products including mineral make-up, mascara, etc. Can't wait to try them. My son and I have been using the liquid hand soap to cleanse our face until our order comes. My face went through detox (all impurities came out)and my pores have gotten smaller. Also used the intensive body cream for moisturizer. My son has bad acne. Well, his face got worse at first as did mine; however, his face is now just a few minor pimples. Nothing like what he had before! I had used "organic" products on my face and my son's face before-usually better at first and then gets very very bad-son's acne spread all over face. Have never gone through detox before with other products. Hair detox, underarm detox, facial detox. My intense breast tenderness in and around my lymph nodes is almost completely gone also. You know this stuff really works! I just love everything I've ordered It's phenomenal. I would love to see a tanning crème, lotion or spray with sunscreen. I am very proud to represent such a fine company as this!

Sherry E-West Virginia, USA

21 May 06

For many years (20 or so) I have suffered from adult acne, especially cyst type acne around my cheek and jaw area. I have had some success short term but nothing that kept my skin improving. I discovered Miessence 12 months ago and as first my skin reacted and I had more redness but was advised to keep going and allow my skin to detoxify. I continued using a combination of soothing products and rejuvenating profile, masks, and the beautiful serums. Members of my family had not seen me for 4 months and couldn't believe the difference in my appearance over that time. 12 months down the track I am still seeing improvement. I no longer have lumpy cysts break out, my puffiness has gone and my scarring is gradually improving. I love the fact that this is being achieved without harsh products that strip my skin. I will definitely continue to use Miessence skin care products...they are just wonderful!

Linda T, VIC, Australia

12 May 06

Thank you so very much for the In-Liven... it has certainly helped me get control of my Diverticular Disease and has completely eradicated the vicious skin disease that my daughter has had from birth and has dropped the excess fluid off my little eight year old girl who is discovering a new body and health that she never had and is more confident and happy with her little body...as a mother to have sanity returned to a hopeless situation that would have escalated to many various head problems for her as she grew older....the smile on my daughters face tells me that you have a miracle product and as a Public Speaker if I can ever offer my testimony and services to your cause then I would be very glad to make that contribution as a true believer in IN-LIVEN....Keep up the great work and thanks for giving me back my peace of mind...

Catherine B...Gabrielle and Georjia xx QLD, Australia
